

Sn#	Issue name	Details for correct/update
1	App public information	In Playstore only App official details like Zufeto, Spacezant Private Limited, contact@spacezant.com needs to display, no personal details should be given
2	User app Zufeto need to be like Amazon/flipkart	The current Zufeto customer app front view is like website, change the front look like Amazon and Flipkart like looks
3	App is a brand of Spacezant	Like Instagram & FB, when we open Zufeto app it should shows at the bottom - From Spacezant & Logo
4	Bank account of Seller in Vendor registration page	Like Instagram & FB, when we open Zufeto app it should shows at the bottom - From Spacezant & Logo
5	Coupon creation	While creating coupon its asking for country, we cannot select country, that option not available
6	The page font size	Page font looks too big compare to Amazon, flikart. Plz check and correct the font size, make the size standard with other ecommerce
7	Export tab (Ship logo)	Add a export tab next to Business bulk, for products needs to listed for exports from India. Sellers while registration needs to update details and select option - Export, to list those export only products/services under export tab page. A seller only want to register for export, not other service during registration, enable the option during registration for each service. Zufeto admin /super admin can add additional service category whenever to want to add in this section.
8	Fssai license required for food items, option while registration by seller, if they wants to list food item product	make a filter with option you want to sell items (food and no food item), if food item then upload FSSAI valid License if vendor wants to sell food items. IEC certificate for export. Apeida for agriculture, Spiceboard certificate for spices export etc. Zufeto admin/ super admin can add this different list of documents and create a drop down and add section for upload.

9	vendor registration document upload repository	Currently, the documents upload by vendor is not visible to Zufeto admin/super admin. These documents needs to be store and accessible to Zufeto team. Exception Zufeto team, no one can remove or delete this documents.
	Unable to find approval request in Zufeto admin page to vendor onboarding request	Vendor onboarding request is not reflecting in Zufeto admin page to approve. On website after upload document, the page is not showing further option to move to home page, etc 
10	Vendor registration page, add option to provide date of License Start and expire date.	License and certificate start and end date, example - Trade license start date 1st April 2026, end date 31st March 2027. All these data needs to reflect in vendor dashboard KYC details to Zufeto admin and Super admin. Zufeto can pull the data by filter with expiry date of document, and get all vendor document expiry date. Also auto email reminder and manual email reminder option with Zufeto
11	Vendor registration KYC for GST validation	Integrate GST verification API and Business entity data fetch option and save data in KYC page. GSTZen vendor company API will be included for this. In Zufeto kyc page, enable the option, without GST verification e-commerce cannot start operation

12	Vendor App kyc issue on mobile drop down option	While registration of vendor and kyc form, it difficult to select option properly on mobile, like men or women cloth, the select option showing at the bottom of the mobile screen and user cannot select, this button and drop down menu needs to be on the middle of the screen for selection.
13	Vendor Kyc and Authorised signature and billing invoice	Add option to upload Authorised signature of seller in a company letter head under seller KYC. The signature needs to reflect in billing invoice of the seller
14	Vendor wise dashboard and All vendor dashboard	No vendor wise dashboard view and download available for Zufeto. If I need to search with vendor ID or GST no, or specific product ID, cost, taxes, TDS, there is no option currently available to search for vendor wise dashboard. For GST filing I can download all vendors with there sales data, for select vendor based on their sales from filter date for GST filing. Zufeto admin/super admin must have all access of data of vendor details, kyc, sales, order, GST etc
15	Remove vendor product and price approval	Remove vendor product and price approval by Zufeto admin. Once vendor onboarded, they will have to list product and prices and changes. Once vendor upload, it will published in Zefeto
16	Product listing detail	Make it simplify for product list, current option is confusing, edit the name as product listing
17	Vendor registration web page not moving forward	After vendor form details registration, the page in website not moving forward. It shows pending for approval. But by Zufeto admin I cannot approve it. Please check this workflow and correct it
18	Taxes & GST	No option to add new govt taxes like TDS, GST on product. From Zufeto we need this access by admin/super admin to select any product category like electronics and update the GST % as per new Govt rules, if seller cant change in short time. We by admin/super admin update the GST % for all or select category. Every sales on the platform will required TDS deduction, Zufeto admin/super admin to add this Govt taxes for billing and reconciliation and payment to vendor and this will reflect in dashboard for seller and Zufeto admin/super admin.

19	Platform charges	From zufeto admin/super admin, we need to add charges for all vendors or selective category vendors any additional charges for their billing settlement. Ex-seller use meta otp service,courier, advertisement etc, we can add, those charges on settlement and it will reflect in dashboard to seller and Zufeto admin/sup admin
20	Quick Delivery tab	Hyperlocal quick delivery tab, include the filter by kms, give option for selection 2 km, 3 km, 5 km and custom kms (as per user choice)
21	Quick Delivery tab	For seller in Quick delivery, Add chat/calling options, product details space, photo, video option, size, and insta link, website link option, rating/feedback
22	Banner & Advertisement	Add option to add insta/fb video/reels link for banner and other advertisement space.
23	Add a tab " Reel Zone " tab next to Bulk order bar	This tab for insta reel seller will have option to list their products via instal reels, Add description, category of product, size, they can add website link, insta page button for shop directly from their insta or web site.
24	Add a sub search box in Reel Zone tab, B2B tab, Export tab. All product and service will also be available in master search option also.	This search option will search all products and service in under Reel listed, B2B, Export tab Page. This product will also list in general search box in home page also. Anyone list their products in this section will reflect in this Reel zone section, export, b2b tab.
25	Vendor registration page, Reel Zone listing, export, B2B, B2C etc option	Add in Vendor registration page Reel zone listing option, B2B, B2C, Export, Reel Zone Page. Depends of seller they can list their product.
26	Vendor sales dashboard	Add option to TDS deduction from vendor sales, calculation as per Govt rules before settlement
27	Ticket creation by customer	Add option for customer issue/order/complaint related ticket creation
28	Ticket creation by Seller	Add option for Seller issue/order/feedback /settlement related ticket creation
29	Customer & Seller details	Admin/Superaadmin of Zufeto will have all access of the portal including sales report, transaction details, customer database, seller database,
30	Zufeto admin/superadmin access	Will only approved the seller to onboard, not required to approval product upload, prices changes etc. Any change in seller details like GST no, Bank details, Address change, etc will required to approval by Zufeto

31	B2C sales	Category of product, product items, Cost, GST, seller, GST no, TDS, courier charges, order ID, etc needs to be access by Admin/Superadmin and for download in different format
32	Local shop chat/calling	Enbale chat/calling options for Local shop
33	B2C sales	Category of product, product items, Cost, GST, seller, GST no, TDS, courier charges, order ID, etc needs to be access by Admin/Superadmin and for download in different format
34	Product price listing	Currently its complex, make it simple for seller. Include Cost product, shipment cost, GST, TDS, payment gateway charges 2%, convenience, Platform fees, etc to drive Final product Selling price.
35	product listing details	Product category, product shipment time, description, size like for shoes and clothes, colour, HSN Code etc, county of origin, brand owner or reseller.
36	Veg & Non veg colour sign for food items	Plz add Non-veg red sign and green sign for veg items specially food products.
37	Invoice address issue	The name and address in the customer profile is not coming correctly in invoice generation
38	Billing invoice details correction	The invoice doesn't shows GST details (IGST, CGST, SGST), Seller name, address, GSTN number, HSN code. Check for invoice details in Flipkart, Amazon to make a proper bill invoice
39	Add HSN code API verification	No HSN code verification API present, this needs to be added with product details like - HSN code 8471, Products - Computers, laptops, and data processing machines.
40	Billing B2C invoice GST & business name option	if a customer wants to place order for bulk under b2c page, while order page, there need an option like Amazon to add GSTN number, company name etc make it B2B billing
41	GSTN billing, business name	When purchasing as Bulk business, there is no option to add GSTN number for the purchaser for GST Input credit benefit. Add an option to address delivery details - Company name, GSTN number, email, phone etc, and as per that details Invoice will generate as B2B billing is different from B2C billing. For B2B the profile name address would not come by default.

42	Billing Invoice Template to be dynamic, Zufeto can edit	The invoice template needs to be dynamic, where Zufeto can use new template as per festival and other occasions and any additional information needs to include as an when required. Seller details like address, GSTN number, should be reflect in the bill including signature of seller
43	Invoice with seller details	The invoice must have seller details, name, address, email id, GSTN, Product category, signature of seller
44	vendor Term & condition acceptance online	Enable terms & condition acceptance online in vendor registration page during onboard formalities. The document of acceptance will be dynamic and subject to regular change and upload by Zufeto for changes in Policy and vendor needs to acceptance to keep their account active on Zufeto website
45	Customer term & condition acceptance online	Customer while signup needs to acceptance the terms and condition of usage and provide consent on Policy/privacy/data usage. This document subject to change from time to time and customer needs to acceptance first time during sign up and also after subsequent updates in Policy. Customer acceptance copy needs to be store with date, time, IP address in database under customer KYC page access only to Zufeto admin/super admin
46	Zufeto admin/superadmin access to vendor and customer details	Zufeto admin/super admin can access all vendors, customer data base records and can project on report and dashboard. Like Name, mobile, address, city, state, country, IP addresses, orders details, orders value (1 date or overall)
47	Remove projected numbers	Remove numbers like revenue, customer, vendor from vendor login front page. Make it as target for 2028
48	Privilege customer like Premium/Prime in Amazon, flipkart	Enable privilege option on customer profile like Amazon prime customer, and platinum gold in Flipkart. Zufeto will have below list, which Admin and Superadmin of Zufeto can enable o customers profile on payment or on purchase basis. 1. Prime 2. Premium 3. Premium Gold 4. Platinum Black
49	Zufeto billing invoice to it's seller/vendor for any product & services for product and service	Enable option for Zufeto in Admin/superadmin page to generate bills for any product and services for its sellers. Include billing details GST (CGST, IGST, CGST) HSN code, category, items, quantity , price, logo, address, email id,
50	Filter or sort option	No option for filter by price (lowest to highest) brand, etc available. Please add the feature

51	Make a Gateway landing page in Zufeto for booking shipment- Issue of Direct access of seller to courier partner page (Shiprocket, Delhivery, Nimbuspost, Indiapost etc) and visibility of competitor.	Make a Gateway page for seller , direct access cannot be given to shiprocket, DELHIVERY, Nimbuspost etc. After order approval, seller will land to Zufeto Shipment gateway page where they will book the delivery. Where customer address will auto fetch from order details, seller can select their address based on warehouse and store, and raise shipment request. Zufeto will provide predefine charges, delivery timeline, best time for pickup like 11 am to 6 pm. Filter like Surface or Air transport etc in this gateway page. Prices will decide by Zufeto like 1 kg/1000 grams within city Rs 70, with state Rs 100, and with India Rs 120. Except Kashmir and NorthEast (additional chages applicable for Special zone - Kashmir and Northeast states). Once seller raise request for shipment, Zufeto admin will review and approve the best possible lowest fare option. Similar will go for return, and reverse request from seller. Make forward, reverse pickup, Return (RTO) option in the Gateway, add volume metric weight calculator (LxHxB) for seller to calculate Volume metric weigh and actual weight. Seller to declare items by drop down filter - Document, merchandise, food, apparel, leather goods, electronics, spices, etc. Declaration Shipping dangerous good (Yes /No). Payment type (COD/ Prepaid). Check the features from Shiprock and Delhivery website like - actual weight, volumetric weight, Pick up location, Drop location, cost of product, type of material, Add filter like Within City, Within State, PAN India (for data dashboard, download and billing) domestic and international filter (by defaulter domestic)...Check Shirocket, Delhivery dashboard for features. Once zufeto admin approve the shipment by selecting the courier partner, the seller and customer can see the AWB number on the order page, live tracking of the order movement and delivery status. Customer can see live tracking of their order, AWB of courier partner will reflect in their order status.
52	Parcel Live tracker in shipment gateway and movement	
53	Integrate other courier partner to Gateway	Signup for other courier partner and incude Delhivery, Nimbuspost, India post and others in the gateway for B2C and B2B and international
54	Automation of shipment request from seller	To be added during Automation

55	Order cancellation option	Currently order cancellation option by customer not enable, even during shipment transit customer can cancel order. Seller can also have option to cancel order during transit.
56	email, sms, whatsapp notification to user/seller	Currently no notification received for orders to customer and seller, enable this option
57	SMS otp and Whatsapp	Enable sms and whatsapp OTP for user registration. With preference - 1 email, 2nd SMS, 3rd whatsapp. User can directly login with gmail account without sms or whatsapp OTP.
58	App live tracking and IP details	while using the App its tracking location. Zufeto admin and super admin can track the location, IP address of customer, vendor, live location, and order placed location, IP address of the customer, vendor during transactions in the audit logs. Add a tab in Super admin page. The super admin /admin, can see a map of India and world and see the location of the order, or dashboard report (word, pdf, ppt, excel, csv) for any security issue and alerts.
59	Policy Privacy	Zufeto admin/super admin can change the privacy policy whenever required from website and app
60	Name and Address, email and phone number on Website and App. This can be editable by super admin	All places in website and app the details should be - Zufeto A brand of : Spacezant Private Limited 6th Floor, Millenium City IT Park, Tower 2, DN Block, Sector V, Salt Lake, Kolkata, West Bengal- 700091 India. email - info@Zufeto.com
